

Forest School – Week 7

This week at Forest School we made bread! We mixed flour and water to make dough and put it on sticks to cook over the fire.

We then explored the forest for things we could use to make a picture. We used sticks, leaves, stones, fairy breath and seeds to make different things.

We used wood from holly trees to make dream catchers. We twisted the wood into circles and wrapped wool around them.

We had a great time and will certainly have sweet dreams tonight!
