

School Council 2018

So far this year the School Council has been busy getting involved with lots of different areas within the school. They have taken part in organising a Lunchbox competition to support Healthy Eating. They have also helped to organise a Poster Campaign to support Anti-Bullying Week. The School Council are currently working on raising awareness about Plastic Pollution to help improve the amount of recycling that we can do at home and in school. In the future the Council will be working towards establishing more communication between other schools in Thanet to promote better transitions and to share ideas.
